RAUL M. CACHOLA

San Pedro, Lasam, Cagayan Valley | rapaulskie33@gmail.com | 0916-981-9621

WORK EXPERIENCE

Concentrix Philippines — **Spark Place, Cubao, Quezon City**

Technical Web Advisor — *2021 - 2023*

- Provided technical support for Linux servers, WordPress websites, and CMS platforms
- Assisted clients with webmail setup, domain hosting, and professional email configuration
- Delivered top-tier customer service, including de-escalation and follow-up for satisfaction
- Helped clients improve SEO and website performance through tailored recommendations
- Diagnosed and resolved over 150 plugin and theme conflicts by analyzing code errors and compatibility issues, reducing site downtime by 40% within the first six months.
- Optimized website performance by troubleshooting WordPress version discrepancies and PHP update challenges, leading to a 30% increase in load speeds across client sites.
- Configured DNS settings and SSL certificates for more than 100 domains, ensuring secure email communication and boosting client trust with a 25% improvement in delivery success rates.

PROJECT EXPERIENCE

Freelance & Self-Driven Projects — **Europe, U.S**

AI Automation & Tech Projects — *Jan 2024 - Present*

- Built real-world automation workflows using Zapier, Make, n8n, GoHighLevel, and HubSpot
- Integrated CRM systems with project management tools to streamline client onboarding and lead tracking
- Completed certifications in AI workflow automation and CRM integration
- Actively engaged in online communities and academies to refine skills and share insights
- Developed custom workflows with N8N middleware to extract reply XML payloads and automate their transmission to GHL via webhooks, improving response processing efficiency by 50% and accurately capturing contact engagement data.
- Developed a Google Apps Script webhook connection that captured and logged more than 500 client form entries daily with timestamp accuracy, streamlining lead management processes and enhancing data reliability across multiple teams.
- Developed and implemented complex external integrations—including Zapier, n8n, ConvertKit, Wistia, and DocuSign—from scratch within client accounts; optimized workflows, increased automation efficiency by 35%, enabling prompt client onboarding.
